Overview:

- **Sprint Duration:** June 24 - July 8th
- **Total Points Completed:** 28 points
- **Points Remaining:** 19 points
 - These points will hopefully be done by the time the sprint is complete. If not they will be reassigned to the next sprint

Chart Interpretation:

- **Remaining Work Line (Blue):** This line shows the actual progress of the sprint. It starts at 18 points and rises to 19 points, indicating an increase in the scope of work.
- **Guideline (Gray):** The ideal burndown rate to complete all tasks by the end of the sprint. It shows a steady decline from 18 points to 0 points by July 8.

Key Observations:

- **Scope Increase:** The sprint scope increased by 47 points during the sprint, as indicated by the added 47 points from 10 issues.
- **No Points Removed or Modified:** There were no points removed or modified during this sprint, showing that all added work was retained until the end.

Comparison with Previous Sprint:

- Due to incorrect task management in Sprint 1, we are unable to compare the progress and performance accurately. Proper task breakdown, estimation, and tracking were not followed, leading to a lack of reliable data for comparison.
